

GoDeep™ Aquaculture Buoys are designed for reliable crop flotation on surface and submerged longline systems to depths of 50 feet. The GD-AF-15 is a robust, impact-resistant hard-shell polyethylene buoy with a proven track record spanning more than 25 years in demanding aquaculture conditions.

Manufactured from 100% virgin polyethylene resin with long-lasting UV stabilizers to resist sun damage, the GD-AF-15 is built for exceptional durability and long service life. Many GoDeep™ buoys manufactured more than 25 years ago remain in use today, making them a proven, high-performance choice for keeping your crop afloat year-round.
